Firstly it is free to register.

Secondly we respect your privacy. There are strict privacy laws in Australia. You can opt-out at any time.

On the registration form we only ask for your **nickname** to use on this site, your **real name** and your **email**.

We recommend you pick the TinyMCE editor instead of No Editor. Type your password twice and check that the time is GMT +8, which is Perth.

That is all you need to do.

You will get an extra menu when you log in with options to '**Submit an Article**' or '**Submit a Web Link**'.

Remember to log out
